

POETRY WORLD WEEKLY

HISTORIC NINTH ISSUE!!

Science Corner

Look down - are you wearing a bra?! ... Well if you are - and you're concerned about breast cancer - according to new research - you might just be better off burning that bra!!

That's right!! ... According to new report that's part of an ongoing study jointly funded by the California University Technology Experts and the American Science Society to asses lifestyle choices as disease risk factors - people in the U.S.A who participated in this study who wear or have worn bras have a significantly higher breast cancer risk then those who haven't!!

According to co-authors Dr. Chee-tun Tygir and Dr. Woods P. Ness - this might be why the breast cancer rate for the men in the study was almost nonexistent : none of the men (at least the ones who looked like men) - except for the occasional drag queen Halloween costume or college fraternity pledge week prank - wore bras!!

Dr. Tygir also noted that - among the individuals in this study - there was not one case of breast cancer - either male or female - under the age of 10!! ... And none of the study participants under the age of 10 ever had worn a bra!!

And even though these were only preliminary results - the overall increase in the breast cancer risk factor among those in the study who wore or had worn bras (excluding the occasional drag queen Halloween costumes or college fraternity pledge week prank) was so alarming that both Study Co - Authors (Doctors Cheetun Tygir & Woods P. Ness) at a Press conference announcing the study

results urged President Obama to issue an immediate executive order banning the wearing of bras - excluding only those who suffer from droopy breast syndrome (an affliction that usually occurs in middle aged women who haven't had breast implant surgery)!!

And since a yet to be completed follow up study of lifetime bra wearers in their 50's & 60's seems to indicate that simply stopping bra wearing does little to reduce the risk factor - it is important - according to Dr. Ness - to catch and stop bra addiction early!!

"We need to follow the model of the 'War on Drugs' and the 'War on Drunk Driving' and apply it to a 'War on Bras!!' " Dr. Ness urged!! ... 'We need role models like 'Hannah Montana' [Miley Cyrus] to do Public Service commercials lifting up their shirts showing their bra - less bare breasts saying something like 'BRAS - JUST SAY NO!!!' "

"Perhaps" Dr. Ness continued " we need to train special Bra sniffing dogs for our public schools to root out Bra Users and school locker Bra hidiers and nefarious Bra dealers trying to entice school children into a life of Bra addiction!! ... I certainly would recommend surprise bra checks wherein a teacher or adult authority figure would be allowed to force students to lift up their shirts to show their bare breasts and verify they're not secretly wearing a bra!!"

Dr. Ness also suggested that - using the school D.A.R.E. (Drug Abuse Resistance Education) program as a model - schools develop a B.A.R.E. (Bra Abuse Resistance Education) program!!

Dr. Ness urged that *"just like those caught driving under the influence of alcohol are forced to attend A.A. (Alcoholics Anonymous) meetings and listen to people stand up and say things like 'My name is Joe Smith and*

I'm an alcoholic' - those caught wearing a bra (excluding Halloween drag queen costumes and fraternity pledge week pranks and middle aged and older women who are afflicted with droopy breast syndrome) should be forced to attend B.A. (Bra-aholics Anonymous) meetings and listen to people stand up and say things like 'My name is Jane Doe and even though I'm only 18 - I'm a Bra-aholic!!' "

He also urged that "just like those caught driving drunk are forced to watch videos and look at gory, horrific pictures of car accident victims - those caught wearing a bra (excluding Halloween and fraternity pledge week pranks and middle aged and older women who are afflicted with droopy breast syndrome) should be forced to watch gory, horrific videos of breast cancer surgery!! ... In fact I'm already working on a screen play of just such a DVD!! ...

Imagine a young beautiful actress playing the role of a breast cancer victim being rolled naked on a gurney into a surgery room!! ... Arriving she sees the Doctor take out a rusty hacksaw and she starts screaming 'I DON'T WANT TO LOSE MY BREASTS!!' ... The Doctor admonishes her by saying 'You should have thought of that young lady before - instead of going topless - you wore the top to your bikini all summer!!' Then the Doctor starts sawing and fake blood starts squirting all over the place and the Doctor starts laughing maniacally while the nurses start chanting: 'Cut it off!! ... Cut it all off!!' "

"Now I know some might see this as too extreme" Dr. Ness continued "but I believe we need extreme measures to scare these young misguided bra users straight!!"

Dr. Ness also contended that just like second time DUI Offenders often lose their license and their driving privileges for a period of time - second time time Bra

Offenders should *"lose their shirt wearing privileges (excepting only see through shirts in the breast area)!! ... That way the seeing Public could verify that the BRA OFFENDER was not again violating the law by illegally wearing a bra!!"*

"I know that the idea of young buxom beautifully endowed women going bra-less would require a sea change in social mores in our culture" Dr. Ness explained - "but - you know - it wasn't that long ago that women breast feeding their children in public was considered unacceptable!! ... Today no one questions a women's right to breast feed her child in public!! ... In fact these days its not that unusual to see a female construction worker running a jackhammer with one hand and holding a baby up to her breast with the other!! ... I guess you could call that a 'milk shake!!' "

[that last comment elicited a combination of groans and quizzical expressions by those attending the press conference, with the exception of a late arrival - Dr. Ness's personal assistant - Young Nurse Ratched - who laughed heartily and in so doing demonstrated that - no - she wasn't wearing a bra!! ... Young Nurse Ratched - by the way- though young and beautiful - looked suspiciously like a combination of Jack Nicholson and Louise Fletcher]

Later in the Press Conference Dr. Tyger announced that *"Though we haven't started the study yet - we have good reason to believe that frequently going to Public Beaches and Municipal Pools with the breast areas exposed helps to prevent breast cancer!! ... In fact not one participant in our study who followed this practice was diagnosed with Breast Cancer during the course of the study!! ... And everyone of the adults in our study who frequently went topless to Public Beaches and Pools WERE MEN - A DEMOGRAPHIC GROUP KNOWN TO*

HAVE LOW RATES OF BREAST CANCER!!

However - if you are a women - and you go topless to the Beach - Dr. Ness warned that : *"Since women have larger breasts than men - when they lie down in the sand - their breasts perturb upward closer to the dangerous skin cancer causing UV rays of the Sun!! ... Though we believe it is important for young women to spend as much time on the beach topless as possible - it is also important to apply sun block lotion to their breasts more often than the rest of their body!! ... Probably every 10 to 15 minutes!! ... And they need to be sure to spend at least 5 to 10 minutes for each breast deeply massaging it in!! ... And each time they finish massaging in the sun block lotion into one of their breasts - they need to jiggle - er - hop up and down vigorously to assure the deepest penetration!!*

Addressing the issue of modesty - i.e. young girls who may feel embarrassed about following this protocol publicly - Dr. Ness suggested several advanced mind diversion techniques!!

"One way a young girl can divert her mind's attention from a crowd of hooting, catcalling young men while she deeply and vigorously massages sun block on to her naked young nubile breasts is to simply close her eyes and moan softly!!

"In cases where this technique is not effective - we've found that stronger 'mind diversion' techniques - such as writhing aggressively in the sand, screaming 'YES, YES, YES!!' while sensuously rubbing sunblock into their soft beautiful naked young breasts usually does the trick!!"

At this point I noticed that Dr. Woods (*"Just call me BIG WOODY"*) P. Ness was sort of 'growing' into his name and I questioned whether there was an element of self interest in some of his suggested techniques!!

To this question Dr. Ness first responded with indignation and then suddenly became very emotional!! With tears streaming down his cheeks he cried : " *You know - I've experienced first hand the stress and suffering associated with a breast cancer diagnoses!! ... All three of my mothers [all three of his mothers?!] were diagnosed with breast cancer when I was still in the womb!! ... You don't know what it's like to be a small fetus - not even born yet - and to think the reason you're being surgically transplanted from womb to womb to womb is because 'mommy doesn't want me anymore' - not realizing it is for your own protection while your mommy is having breast surgery!!*"

"*You don't understand what it is like*" Dr. Ness continued "growing up in a small town in Utah explaining to disbelieving classmates why it is that you have three mommies while everyone else has just one!! ... To hear taunts like ' My daddy says that when your three so-called mommies came back from Las Vegas after their supposed breast cancer surgery - they all had huge breasts - twice the size they used to be!! ... How come?!'

And then trying to explain to them - as my daddy did when I asked him - that it was just an 'optical illusion' - when they were too ignorant to know what the phrase 'optical illusion' meant!! ... You know - I can still hear the taunts from childhood of 'Hey Woody -is that an optical illusion in your pocket or are you just happy to see me' ringing in my ear!!"

And then Dr. Ness spoke of the hardships he endured as a child "*being kept up night and day as world famous Doctors - so successful that they drove huge SUV's - so huge they often had 18 wheels - so successful they didn't have to dress like doctors - they could dress like rich, famous men like Steven Spielberg or Michael Moore with t-shirts or flannel shirts and jeans and baseball caps -*

visiting from the Motel 6 we lived next to - just to personally examine my mothers breasts in the special examining room my father built with large mirrored ceiling to learn about their miraculous recoveries from breast cancer!! ... It was my dad who explained to me that the soft moaning and screams of 'YES, YES' that often emanated from the examining room were simply advanced mind diversion techniques my mothers were employing to overcome the embarrassment of so many different doctor strangers personally examining their naked breasts!!

Of course - after hearing Dr. Ness pouring out his heart - I felt deep shame and embarassment over having questioned his medical integrity!! ... I explained to Dr. Ness that I was "*just playing devil's advocate!!*" ... That of course I knew that Doctor Ness - like everybody else in the medical field - are '*self sacrificing good people who only have their patients best interests at heart!!*'"

It was then that Dr. Ness announced that all three of them - including Dr. Tygir and Nurse Ratched - had just that morning offered to the County Health Department their services visiting local beaches to pass out leaflets warning of the hazzards of bra and bikini top wearing and extolling the benefits of going topless!!

Also - they planned to personally apply their special formula '**BREAST AND NIPPLE**' sun block lotion to willing beach going female participants to demonstrate the correct method of of application!! ... For Men there without their wives or girlfriends present who were willing to purchase the "**DOCTOR'S CHOICE SPECIAL FORMULA BREAST & NIPPLE SUN BLOCK LOTION** and **HOT WAX RETAINING KIT** for the *ridiculously low price of \$49.95*" - voluptuous well endowed young Nurse Ratched would be available to act as a '*hands on*' model" for them to learn the proper technique for applying the sun block lotion to the breast

area and "*sealing it in*" by dripping their special formula hot wax over it - so that they could later teach these techniques to their wives and / or girlfriends!!

In other science news : A Study of 100 individuals (40 human males and 60 domestic cats) sponsored by the Investigative Laser Institute Eye Surgeons showed a high risk factor of going bald among those in the study who wore eye glasses!! ... *"Even though not all the 40 eye glass wearing human males in the study went bald - not one of the non eye glass wearing domesticated cats went bald during the course of the study - resulting in statistical risk factor increase of going bald among the study participants who wore glasses that reached infinity!!"* ... Which led lead researcher Dr. S.C. Ammer to suggest that the *"scourge of baldness could eventually be eliminated simply by requiring all infants to have preventative LASER EYE SURGERY!!"* ... A spokesman for Association of Hair Toupee Manufacturers disputed the use of the word 'scourge' - pointing out that *"Toupee wearing bald men have a very low risk factor of being scalped by 'savage injuns!!" ... And even when they are - its no big deal!!"*

By the way - if you are interested in getting copies of any of the first nine or future issues of Randy's POETRY WORLD WEEKLY - or if you have comments - you can e mail me at randy.stodola@yahoo.com

Or you can call me at 1- 424 - 215 - 2088

Special Thanks

I'd like to thank the people at these businesses and organizations who have gotten every issue of Randy's Poetry World Weekly magazine (I'm on my tenth issue so far)!! ... I figure - if they patronize my enterprise and urge others to do the same - I'll do the same for them! ... They all seem like real nice people - by the way!!
